

VR Experience

1 response

What was the purpose of this Experience?

1 response

To simulate the virtual diagnosis of an illness

What were the three locations in this demo?

1 response

School, home, doctor office

What was realistic or relateable about this experience?

1 response

The appeal to humanity of missing some kind of birthday and idea of getting sick from school.

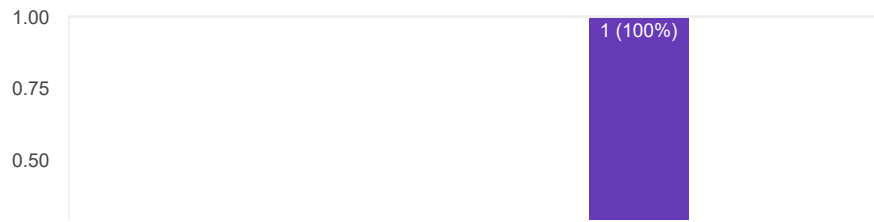

What took you out (damaged) this experience?

1 response

The controls were somewhat limiting and me feeling six inches tall most of the time in the second and third location.

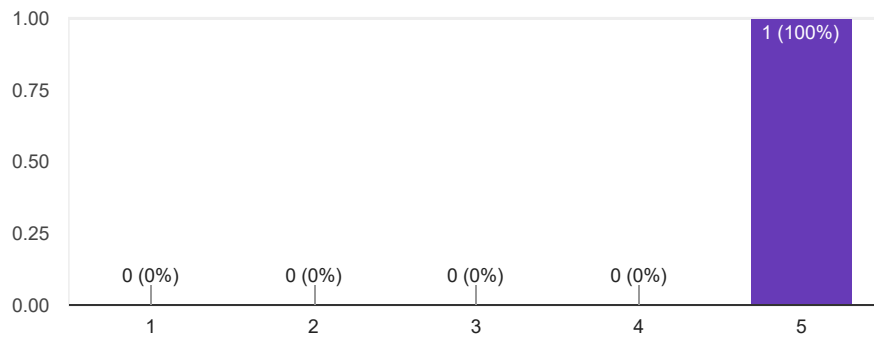

How relateable was this experience?

1 response

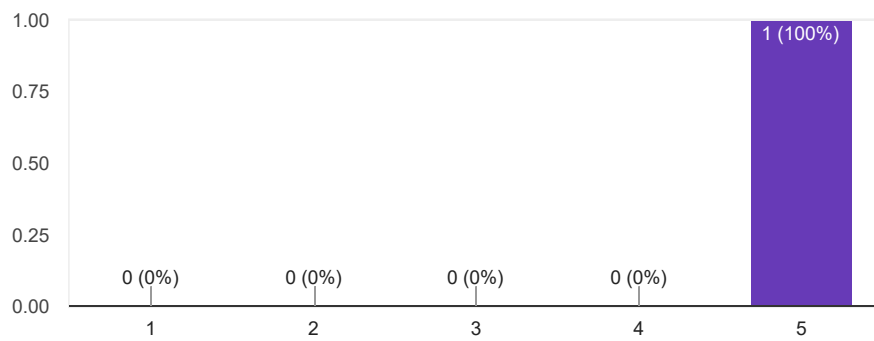

How likely are you to consider a Flu Vaccine after this experience

1 response

How important is the flu vaccine

1 response

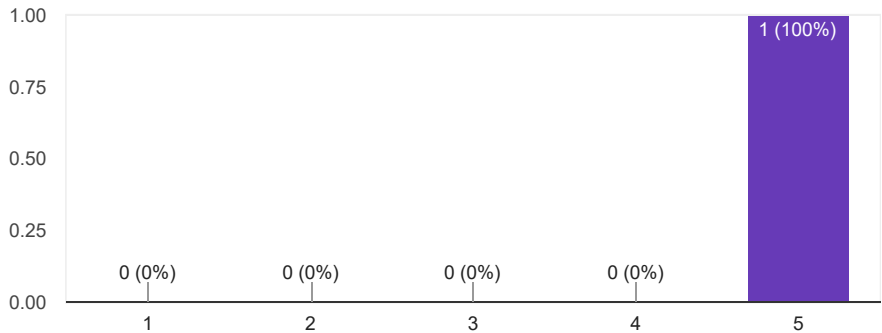

The Flu Virus can affect my life

1 response

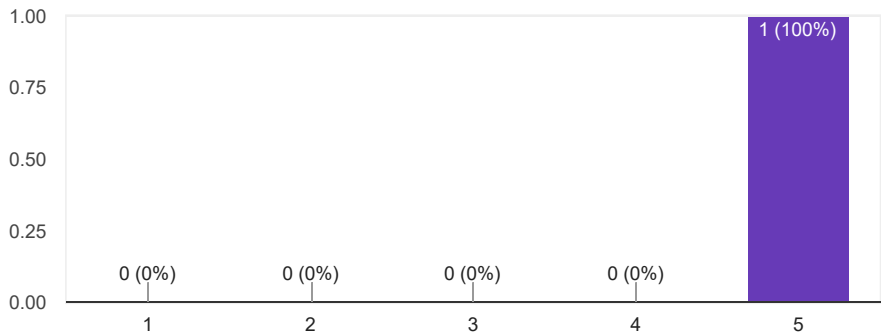

The flu virus can make me miss work/school

1 response

The flu virus can make me miss social events

1 response

Any Suggestions?

1 response

Make the doctor not float like a genie. Maybe simulate the fatigue in the home by making me slower?
